They are the Offspring, children of a mysterious experiment gone awry--and they are in terrible danger. Nicholas Braden has an uncanny psychic talent for finding things--which is why he's been recruited for a covert government program designed to hunt down terrorists. While his work for a shady controller named Darkwell is leading him down some very questionable alleyways, it's also bringing him closer to Olivia, Darkwell's stunning young assistant. A good girl with a wild, secret side, Olivia tempts Nicholas in ways he never believed possible--and in his business, a loss of control could prove fatal. But there is something not right about the operation. And as Nicholas and Olivia's passion reaches a white-hot intensity, chilling reversals of good and evil, of right and wrong, suddenly threaten their very survival.
