MURACH`S ASP.NET 4 WEB PROGRAMMING WITH VB 2010: TRAINING & REFERENCE (FOURTH EDITION)

Shroff Publishers/Murachs, 2011. Softcover. Condition: New. If you know how to create Windows applications using Visual Basic, you`re ready for this latest edition of our classic web programming book. It will get you off to a fast start with web programming, no matter whether you`re coming to ASPNET 4 with a background in an earlier release of ASPNET, classic ASP, Java servlets/JSP, PHP.or with no web background at all. In fact, by the end of chapter 4, you`ll know how to use Visual Studio 2010 to develop and test multi-page database applications for the web. But this book is much more than a beginning book. By the time you`re done, you`ll have the professional skills you need to develop bullet-proof web applications for business. You`ll also find that this book does double duty as the best on-the-job reference book that money can buy. Everything you need to know to get going on web development Look at the table of contents, and you`ll see why we say that this book covers what you need to know to develop web applications at the professional level. That includes skills like: State management Data validation Database handling with SQL and object data sources, as well as with time-saving data controls like GridView, DetailsView, FormView, ListView, and DataPager Designing and formatting web pages with cascading style sheets (CSS) and the CSS tools that ASPNET provides Using master pages, themes, and site navigation features to create user-friendly interfaces Handling common frustrations, back-button refreshes, with ease Getting started with ASPNET AJAX to improve application performance Deployment of web applications on a remote server Developing tested WCF services that can be hosted by a web server and accessed by multiple applications, running on any platform 3 reasons why this is the ASPNET 4 book to get first All...
