## Stacs 99: 16th Annual Symposium on Theoretical Aspects of Computer Science, Trier, Germany, March 4-6, 1999 Proceedings

By -

Springer. Paperback. Book Condition: New. Paperback. 590 pages. Dimensions: 9.2in. x 6.1in. x 1.0in. The Symposium on Theoretical Aspects of Computer Science (STACS) is held annually, alternating between France and Germany. The current volume contains the proceedings of the 16th STACS conference, organized jointly by the Special Interest Group for Theoretical Computer Science of the Gesellschaft für Informatik (GI) in Germany, and Maison de l'Informatique et des Mathématiques Discrètes (MIMD) in France. The conference took place in Trier the oldest town in Germany, with more than 2 millennia of history. Previous symposia of the series were held in Paris (1984), Saarbrücken (1985), Orsay (1986), Passau (1987), Bordeaux (1988), Paderborn (1989), Rouen (1990), Hamburg (1991), Cachan (1992), Würzburg (1993), Caen (1994), München (1995), Grenoble (1996), Lübeck (1997), and Paris (1998). All proceedings of the series have been published in the Lecture Notes of Computer Science series of Springer-Verlag. STACS has become one of the most important annual meetings in Europe for the theoretical computer science community. This time, altogether 300 authors from 36 countries on the continent submitted their papers. Each submission was sent to five members of the program committee for review. During the program committee session 51 out of the 146 submissions were accepted for presentation. In two...
