Pursuant to a congressional request, GAO reviewed the Federal Aviation Administrations (FAA) modernization plans for its Airmen and Aircraft Registry Systems, focusing on whether FAA: (1) adequately defined user needs; and (2) addressed other key system development steps before proceeding with planned equipment and services procurement. GAO found that: (1) FAA failed to adequately define the needs of internal users or law enforcement agencies involved in drug interdiction; (2) FAA used inadequately defined and documented functional requirements, a limited alternative systems design and configuration analysis, and a flawed cost-benefit analysis; and (3) the analyses were inadequate to support FAA plans and increased the risk of cost overruns and schedule delays. This item ships from La Vergne, TN. Paperback.
