Open University Press. Paperback. Book Condition: new. BRAND NEW, Communication Skills for Adult Nurses, Abayomi McEwen, Sarah Kraszewski, "This book is a real gem - useful not only for nurses, but for all healthcare professionals, students and educators wanting to develop their communication skills. One is reminded that it is not always about 'what' is said, but 'how' it is said. This book will be a great resource for those advocating interprofessional working, while keeping the patient's perspective in the reader's mind throughout." (Dr Susanne Lindqvist, Senior Lecturer in Interprofessional Education, University of East Anglia, Norwich, UK). "This book is slim line and concise but covers a lot of vital points that all nurses and students of nursing should be aware of. It is well laid out with activities, case studies and vignettes to illustrate key issues. I thoroughly recommend this book to nursing students and those who work with people in any context." (Jo Parham, third year adult nursing student at the University of the West of England). "From a Nursing Student perspective this book is excellent. It deals with every aspect of communication from the fundamental skills, through the use of technology, challenging situations, communication in teams, to the legal and ethical aspects of communication." (Conor Hamilton, Nursing student' Queens University, Belfast). This is an essential guide for all nurses!! With an emphasis on practical application, this lively and accessible guide will help nurses to hone and develop their communication skills. Full of examples from both a patient and a nurse perspective, the book covers: barriers to communication; communication in teams; the patient's perspective; making good use of email and phone; managing difficult conversations; how good communication underpins the essence of care; and, examples of both good and poor practice, taken from the real-life experiences of the authors, are...
