This pdf is definitely worth getting. Better then never, though i am quite late in start reading this one. It is extremely difficult to leave it before concluding, once you begin to read the book.

Sparkling Press, 2007. Trade Paperback. Book Condition: New. First - First Edition. 0976356554 David Striker's random discovery of a hidden planet changes his life and unites the world. The human desire to explore leads the international space community to dedicate countless resources and untested technologies to reaching the Stealth Planet instead of pursuing the relatively safe journey to Mars. Striker, an astronaut with a dream and a desk job, along with his partner, Margie Ritter, push each other and develop themselves, and their relationship, into becoming the exemplars of human achievement necessary for selection as part of the elite crew. With more intellect and strength than luck, the diverse crew defeats challenges far greater than any anticipated--all the while being experiments in one technology-obsessed man's insidious quest for perfection.
